

Kitsch Kitchen Winter Collection 2011

By traveling the world Kitsch Kitchen finds inspiration for her new collection. For the winter collection 2011 we traveled to Bali, Thailand and Mexico. However for the theme of the agenda we decided to stay close to home.

Agenda 2012

This is the 8th edition of the Kitsch Kitchen agenda. The theme of the agenda 2012 is the mix of cultures in big cities in Europe. On every street you can find traces of these different cultures: in stores, restaurants, on markets, in parks and on the tram you can see the cultural diversity.

The cover of the agenda is available in different prints and can be used every year. This year we have a special edition cover with lace.

Indonesia

The lamps are made of thin laths of bamboo. The model and wicker of this lamp are inspired on fish traps. The lamps are made in cooperation with small workshops on Bali. This will support the people working there and prevents loss of old techniques

USA

French Bull (designed by Jackie Shapiro New York) presents this winter a new kids serie with a Jungle theme. The melamine series of French Bull are very recognizable by it's bright colors. The jungle kids serie consists of 4 different cups, plates and soup bowls.

Thailand

Key chains, Christmas ornaments, baskets and stools. This season Kitsch Kitchen brings a lot of brightly colored products from Thailand.

New print: Forest Friends

Kitsch Kitchen proudly presents a new line named Forest Friends. In this print we have self adhesive foil but also paper plates, cups and napkins. Some of our favourite Forest Friends are printed on bags. Kids will recognize these animals and the print is suitable for children rooms, for boys and girls.
